

Staying at home survival pack!

Making sense of yourself, in a world that makes no sense!

Life has changed. (just for a little
while, not forever!)

It is difficult not to worry and stress
about what it all means for your life,
your family and your friends.

There is a lot of worry,
uncertainty and
stress around.

Expressing and learning to
manage your feelings will help
this time to be one of resilience
and hope rather than fear.

Please know you are not alone
and that people care and
are here to help.

Tidy Room

One of **THE BEST** things you can do to feel calm and settled is to take a couple of minutes out to do some deep breathing.

You might feel daft at first, but, give it a go.

With practice, you will be an expert in being able to feel better wherever you are and whatever you're doing.

6 Steps to Deep Breathing

1. Sit or lie down comfortably.

2. Close your eyes. Place one hand on your chest and the other on your stomach.

3. Breathe in deeply and slowly through your nose. Count to five.

4. Feel your stomach rise against your hand.

5. Breathe out slowly through your mouth.

6. Repeat Steps 1-5, complete five times.

My Circle of Support

You might feel lonely being stuck inside.

Think about who is in your circle – friends, family and other people that care about you.

Write down every little thing on your mind.

Circle the positive thoughts.

Cross Out the things you can't control.

Thought Processor!

Thoughts are constantly popping up in our heads. Just because we think something, doesn't make it true. Write your thoughts down and rate how much you think it is true.

Dump your unhelpful thoughts!

Fill the bin with the thoughts you'd like to get rid of.

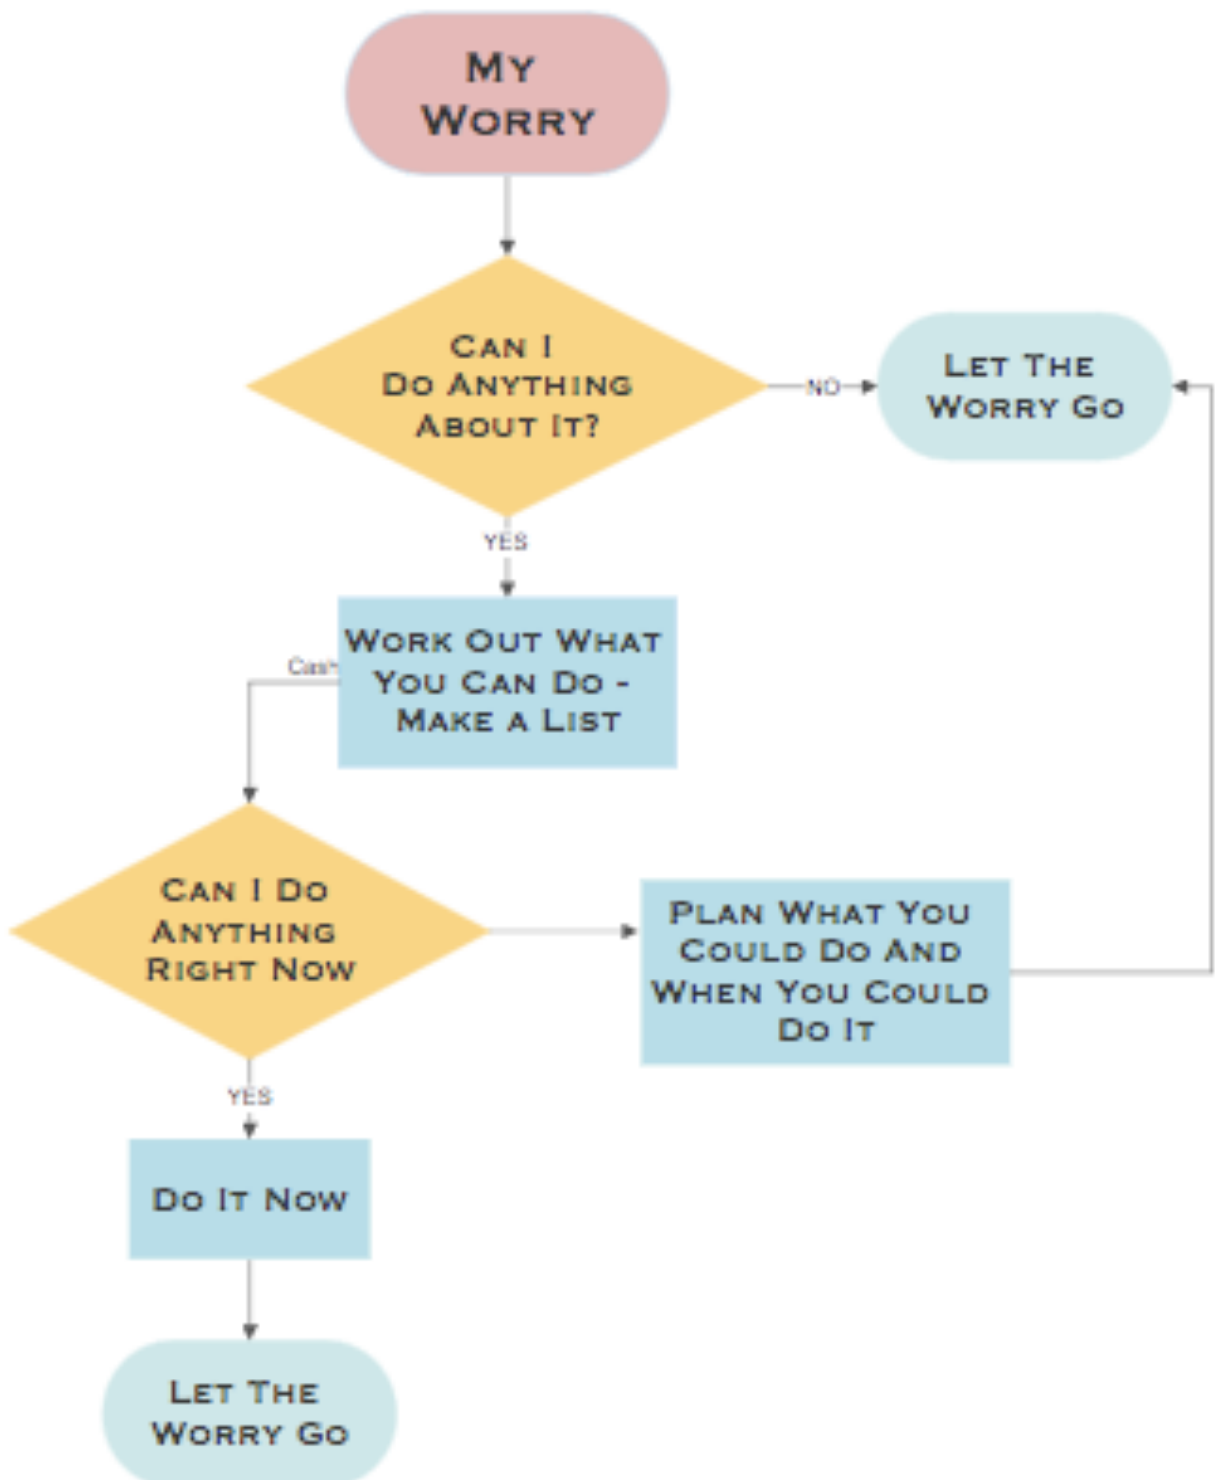

When they are all out – rip it up, scrumple it,
stamp on it and throw them away!

Worry Manager!

It is very normal to worry – but when we worry too much or worry a lot about things that we can't do anything about it can make us feel really bad.

Manage your worries below.

Connect the Dots!

In any order, see if you can create something you recognise.

Finish the Drawing!

Write your name with the pen in your mouth.

Write your name with your other hand.

Write your name with your foot.

Write your name upside down.

Not just for little ones!
Colour in the rainbow,
cut it out and put it in
the window.
Cheer everyone up on
their isolation
exercises!

Gratitude Jar

Every day write down something that
you are grateful for.

Fill it up!

Learn to be present!

Being present means to pay
attention to the moment.
Forgetting the past and the future.

Sit quietly and pay attention to
what is going on right now.

1. Right now I see ...
2. Right now I am touching ...
3. Right now I hear ...
4. Right now I smell
5. Right now I feel...

What I love about being at home.

What I miss about being at school.

HELPING	HURTING

15. Draw your family tree. Write or draw a picture of each person on a leaf.

20. Create a picture using only the letters from your name.

You might want to write your name in bubble writing and decorate it or you might want to create a picture with the letters from your name.

Write a handwritten letter to someone
you know that is isolated at home.

Post it (if possible)

Or take a photo and send it to them.
